Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 08 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A wet, wintry start, turning dry later. Icy conditions remain.

Today:
After a wet start, with many seeing wintry showers of rain, snow, and sleet, cloud clears to the south through the afternoon, leaving drier conditions with sunny spells for some. A continued risk of icy conditions through the day. Maximum temperature 3 deg C (37 deg F).

Tonight:
A clear and dry night for all. However, widespread frosts will develop, and conditions remain icy. Freezing fog patches are likely for many, feeling very cold throughout. Minimum temperature -6 deg C (21 deg F).

Saturday:
A very chilly and frosty start, with a continued risk of icy conditions. Sunny and dry throughout, with a light breeze. Potential outbreaks of rain in northwesternmost areas towards night. Maximum temperature 4 deg C (39 deg F).

Outlook for Sunday to Tuesday:
Milder on Sunday, turning cloudier with outbreaks of drizzle. Turning unsettled Monday afternoon, with stronger winds and persistent rain, heavy at times. Largely dry on Tuesday, with rain arriving later.
